I received a Public Notice proposing an appeal of the Heritage Preservation Commission of a property at 1029 Ranere Court.

I strongly urge a denial vote!

The property in question is located in a court opposite our home on Peekskill Drive. We have lived in our home over 35 years. It has been a source of pride to have a Sunnyvale Historic Landmark in this area. The entire area in question, was once all orchard. The home on 1029 Ranere is a beautiful representation of 1930's Spanish-Mediterranean architecture. To have it taken off the Historic Landmark list would be criminal.

Our city heritage is fragile. We must have ties with our past. Thank goodness we have a Heritage Commission, that works to preserve the history of Sunnyvale.

This property sits as a proud reminder of the homes and orchards that once covered Sunnyvale. To remove it from the Historic List would subject it to the greed of development and change the flavor of our lovely city, and neighborhood.

Sincerely,
Lorraine Hanel
